The drawings were received on July 23, 2007. These drawings are approved.

Claims 1, 4-7 and 9 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 10 and 11, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all method claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement as set forth in the Office action mailed on December 28, 2006 between the product comprising an integrally molded surface fastener and the method of production for an integrally molded surface fastener is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

This application is in condition for allowance except for the presence of claims 12-14 directed to a continuous production device non-elected without traverse. Accordingly, claims 12-14 have been cancelled.

The following is an examiner's statement of reasons for allowance: The reasons for allowance provided by applicant in the remarks received July 23, 2007 on page 10, ¶7 through page 11, ¶5 are incorporated herein as the reasons for allowance. While applicant has filed a

certified translation in response to the rejection based on Kurtz, Jr. et al. (US 6996880) the extensive amendment of claim 1 avoids Kurtz et al., as there is no showing of Kurtz et al. teaching such detailed structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
